tee reports.

Washington, Dec. 13.—Hiram Johnson's friends, incensed at the action of the republican national committee in restoring full southern representation in the next republican convention, will demand that the convention itself review the committee's action.

The present purpose is to prevent the convention from functioning until they have had a decision on the committee's right to rescind action cutting southern representation by 23 delegates. The 1920 convention ordered reduction. It was made on the recommendation of the sub-committee, headed by Senator Howell, Nebraska.

Then with amazing suddenness the national committee yesterday threw out the Howell report and substituted a plan proposed by Senator Pepper, Pennsylvania, giving back to the south the delegates thrown out by the Howell committee.

Further, the committee on contests which deals with disputes over representation was so constituted that anti-administration forces have little representation on it.

The national committee's action in this matter has given new evidence of the strength of Coolidge's control. Then in conjunction with the sudden switching of the 1924 national convention from Chicago to Cleveland it shows that the Coolidge campaign managers not only know what they want, but how to get it.

Senator Johnson's friends in California not only wanted the Howell committee program of reduced southern representation adopted, they wanted still further cuts.

Their only recourse now is to go into the convention and attack the national committee on the ground that it violated the mandate of the 1920 convention. They will ask whether the convention or the committee control the republican party. They will demand that the southern delegates restored by the Pepper plan be unseated. Johnson and his friends declared the northern states who have presidential primaries are discriminated against in southern hand-picked delegates. That is the basis of their fight.

SENATE DEMOCRATS BALK AT COALITION

Washington, Dec. 13.—Senate democrats today definitely refused to enter a coalition with senate progressives against administration republicans.

Senator Robinson, democratic leader, declared the democrats "would stick to their organization" when the fight to break the deadlock over election of a chairman for the interstate commerce commission is resumed on Monday.

BRAINERD WOMAN SEEKS A DIVORCE

10 DEAD IN SEVERE BLIZZARD SWEEPING NEW MEXICO, DEC. 12

(By United Press)

Albuquerque, N. M., Dec. 13.—Ten are dead in a severe blizzard which swept New Mexico Wednesday, according to reports received here today.

Three women and two children were found frozen to death on Blue Springs ranch, 50 miles southeast of Albuquerque.

Bodies of two boys and a man were found near Vaughn, Mexico. A railroad employe, blinded by the snow, fell into a canyon at Bisbee and a sheep herder was found frozen in his camp near Vaughn.

At Blue Springs ranch Mrs. Montoya, her daughter, daughter-in-law and two grandchildren were frozen to death while driving a wagon containing household effects from Lincoln, N. M., to the ranch.

BREAK UP BANK ROBBER GANGS

YEGGS HAD PREYED ON BANKS IN FOUR STATES THIS FALL

(By United Press)

Minneapolis, Dec. 13.—The gang of yeggs which has preyed upon banks in Minnesota, South Dakota, Iowa and Wisconsin this fall, has been broken up.

Five of the 12 or 15 members of the yegg mob are under arrest in Minnesota towns and members of the Minnesota Bankers' Protective association are "hot on the trail" of the others, it was learned at headquarters of the association here.

Operating in three gangs under the direction of two notorious leaders, the yegg mob has robbed about thirty banks in the four states in the last three months.

The loot has totaled more than \$250,000, it was estimated.

In addition, operatives believe the same gang is responsible for the robbery of a number of merchandise stores in Minnesota.

Split into three gangs, the yeggs would strike in two or more towns on the same date. Then they would meet up with their leaders for a division of the spoils. Most of these meetings have been held in the Twin Cities, it is believed.

Louis Tufts, 23, arrested in a Minneapolis Gateway rooming house yesterday by Sheriff D. E. Schoener of St. Cloud was held in jail in Stearns county in default of \$2,000 bond as a suspect in the robbery of the Farmers State Bank at Fairhaven last Friday.

Detectives are hot on the trail of three others of the gang which staged this robbery, it was said.

Four other members of the gang are said to be held without charge in jails in other Minnesota counties and because no charges have been made representative of the Bankers' association declined to give out their names or the places where they were held. They are holding off until other members of the mob can be apprehended.

B. D. Brown, chief of detectives for the association is directing the investigation which will culminate in a cleanup of the entire gang of bandits, it is predicted.

The disclosure resulted from the arrest of Tufts in Minneapolis. Detectives have been on the trail of members of the gang for several weeks. The two leaders it was said have not been rounded up and efforts are now being made to round them up.

One member of the gang is held in Minneapolis, it was learned, and two other members of the gang that robbed the Fairhaven bank are now in Texas fleeing toward the Mexican border. Detectives hope these two will be captured.

Mike Allen, arrested at the same time Louis Tufts was apprehended, is held in Minneapolis.

MINNEHAHA ZOO PASSES THROUGH TO BREEZY POINT

FIRST CONSIGNMENT CONSISTED

LODGE WAS THE TRUCK
DRIVER

Big Black Bear Makes His Escape

The call of the wild proved too strong for the 500 pound black bear which Lief Nygard was hauling from Minnehaha park to Breezy Point Lodge. Somewhere between Brainerd and Breezy Point the big bear clawed his way out of the end of the crate, and unknown to the driver, slipped away into the woods.

The loss was not discovered until this morning when Nygard set about to unload. The bear is perfectly black with the exception of two white stripes on his breast.

It may be necessary to call in the buffalo hunters from Scotty Phillips' ranch in Pierre, S. D., and stage a bear hunt chaperoned by Captain William H. Fawcett.

The first consignment of animals of the Minnehaha zoo, recently bought by Captain William H. Fawcett, passed through Brainerd at midnight last night on its way to Breezy Point Lodge, where the shipment will join the other animals. It was a bitter cold night with a wind whipping the road to the accompaniment of a zero temperature.

Lief Nygard was the truck driver and he said his involuntary passengers gave him no trouble at all. The bear would emit a growl once in a while when a bump in the road was struck and that unfriendly comment would arouse the deer from their slumbers.

Lief and another Breezy Point man got their pictures in the Minneapolis Journal showing them engaged in loading deer for the shipment. The removal of the zoo as well as Captain "Buffalo Bill" Fawcett's prowess as a buffalo hunter has centered universal attention on Breezy Point Lodge near Brainerd.

Some time Friday afternoon two trucks will convey the elk through Brainerd and it is hoped to pass through the city after school time so that the children and grownups may get a glimpse of these noble animals. The elk lodges from all over the state are taking an interest in these elk and promise visits at Breezy Point to see them established in their new habitat.

The Minneapolis Journal gives this account of preparing the animals for shipment by truck.

Wild with rage when two men intruded on his sovereignty and attempted to rope and tie him, "King," the majestic bull elk of the Minnehaha park herd, fought a spectacular battle with an expert cowboy and an animal trainer before allowing his six foot horns to be cut off and a force of helpers to drag his great hulk to the shipping crate in which he will be sent to the Breezy Point zoo at Pequot.

The animals at Minnehaha park have been sold to W. H. Fawcett, owner of Breezy Point lodge, and a force of men tackled the job of crating the nine elk and two bears remaining. The deer already have been crated.

When the great elk had been conquered, after he had broken the strongest lasso obtainable and charged the two men so viciously that Frank Evans, expert cowboy from the South St. Paul stockyard, narrowly escaped with his life, Roy Llewellyn, animal trainer at Longfellow Gardens entered the bear's den, armed with a rifle and a pitchfork, and attempted to rout out a big brown bear.

The bear snapped the pitchfork handle with one bite and charged

Minneapolis, Dec. 13.—Three boys were wounded and captured and two other boys and four girls were apprehended in a chase last night in which police riddled their stolen car with bullets.

The shooting took place shortly before midnight when three detectives and a patrolman overtook the car. The youths had stolen it the night before and had been joyriding ever since. George O'Neill who tipped officers off, was wounded in the hand. Ed Connolly was wounded as he sat in the car and a third boy was scratched by a bullet. The car was stopped and all surrendered.

O'Neill and Connolly are 18 and the other three boys were 15, 16 and 17 years old.

FREIGHT COLLIDES WITH AUTO AND THREE ARE KILLED

Waukesha, Wis., Dec. 13.—Three persons were killed near here early today when a freight train struck the automobile in which they were riding at a crossing on highway 19.

The dead are Mr. and Mrs. William McLaughlin, Milwaukee, and Arthur Minturn, West Allis.

The party was riding to Milwaukee and owing to the rain and fog did not see the approaching train. The auto was demolished.

Llewellyn, who finally gave up the attempt after being in the dark den for 10 minutes.

Believing that the cow and buck elk would submit to being crated if "King," the ruler of the herd, was out of the way, Evans and Llewellyn tackled him first. The big bull was driven into a runaway at the end of which was a great shipping crate.

Evans tossed his rope over the big horns and quickly snubbed the rope to an iron post. With a roar of rage "King" put every ounce of strength in his great body into one heave. The iron post toppled and the rope snapped, and Evans, who had jumped to the ground, made a frantic leap to the fence as the elk, foaming at the mouth, charged him. The big horns grazed the cowboy as he made a dexterous leap over the fence.

Using a stronger rope, the lasso again settled over the animal's head. This time the rope was snubbed to a stronger post and a horse was used to pull "King" to his knees.

Evans roped his legs together and, with 10 men sitting on him, the big palmed horns were sawed off painfully, and he was placed in the crate, bellowing with rage.

PROMOTER

(By United Press)

Chicago, Dec. 13.—A world-wide search was started today for Leo Koretz, prominent clubman, charged with operating a \$50,000,000 oil swindle.

States Attorney Robert E. Crowe took personal charge of a raid on Koretz' offices occupying the entire floor of a downtown building and after a preliminary investigation he has called the aid of police in every city in the United States in search for Koretz, who has been missing for more than a week.

Descriptions of Koretz were flashed out to sea by radio in the belief that he had sailed for Europe.

An investigation of Koretz' operations was started when F. E. Matthews, an attorney, complained to Crowe he had lost \$40,000 in one of the man's latest oil promotions. Scores of wealthy and socially prominent men are believed to be victims of Koretz' swindle.

One man lost \$200,000 in a promotion scheme, Crowe said he learned from records in Koretz' office. Koretz, according to Crowe, told his friend he owned 1,000,000 acres of land in Panama on which the "choicest oil had been found."

"The Great Bayano Trust of Panama" was the name Koretz used in connection with this project, it was said.

BAREFOOTED GIRLS DANCE IN CHURCH

BARE LEGGED, TOO, THEY TAKE
PART IN CHURCH SER-
VICES

(By United Press)

New York, Dec. 13.—Dancing of barefooted girls in St. Marks in the bourgeoisie may lead to an attempt at liberalization of the Episcopal church throughout the United States. The controversy between Dr. William Guthrie and Bishop William S. Manning, a spokesman for Dr. Guthrie told the United Press today, will be carried to the next general convention of the church if necessary to establish the canonical right of the rector of St. Marks to bring the church "up-to-date."

Dr. Guthrie will make no apologies when he goes before the bishop of the diocese of New York at 5 p. m. today," the spokesman said. He feels that the bishop is rather overstepping his authority in even summoning the rector of St. Marks for a conference.

It was explained that Dr. Guthrie who had been summoned before the bishop because he allowed barefooted, barelegged girls to dance an accompaniment to one of his church services can only be tried by an ecclesiastical court on charges which must be brought by members of the church other than the bishop.

TRIED TO KILL HIS WIFE, THEN KILLED HIMSELF

(By United Press)

Little Falls, Minn., Dec. 13.—Peter Collignon, 65, failed in an attempt to kill his wife here early today and committed suicide.

Returning from Winter, Wisconsin, where he had been working in a lumber camp at 2:30 a. m. Collignon fired at his wife who escaped by hiding in a closet. Collignon then shot himself and died instantly. Five children survive.

INCOME TAX PAYMENTS FOR MINNESOTA SHOW QUITE AN INCREASE

(By United Press)

St. Paul, Dec. 13.—Income tax payments for Minnesota made so far this month show an increase of \$319,000 over the same period of last year.

This was revealed in a report today by L. M. Willents, collector of internal revenue.

The total so far this month is \$947,000, compared with \$629,000 last year, according to the statement.

Saturday is the last day for the payment of taxes and a five per cent penalty will be imposed for delinquent payments, Willents said.

OBREGON TAKES THE FIELD TODAY

PLANS AN EXTENSIVE ATTACK
AGAINST REVOLUTIONARY
FORCES

(By United Press)

San Antonio, Texas, Dec. 13.—President Alvaro Obregon has taken the field against the revolutionary forces of Adolfo De La Huerta.

Advices received here stated Obregon was conferring with his military leaders at Irapuata planning an extensive attack on the rebel forces.

Secretary of War Ferrero will leave the Mexican capitol today to review troops who will leave for the Vera Cruz front.

Squadrons of federal government airplanes are making flights over the territory held by the revolutionists to map out a plan of campaign for the Obregon forces, according to the reports.

FEDERAL TROOPS VICTORIOUS AT VERA CRUZ

Mexico City, Dec. 13 (Delayed in transmission).—Federal troops today defeated the main rebel army in a battle at Vera Cruz.

An insurgent force under General Guadalupe Sanchez, commander in chief of the Vera Cruz rebels was engaged at Esperanza.

The rebels numbering 2,000 and federal forces under General Fasuto 2,500 strong attacked the advancing column of insurgents early today.

The battle raged for five or six hours. General Sanchez's forces were badly beaten and driven back to Xuchitlan.

REPORTS OF NEW BATTLES

Reports of new battles between federal troops and rebels in several states of Mexico reached the United States today.

President Obregon was somewhere in the field conferring with generals of the forces still loyal to the administration.

Dispatches to San Antonio said Irapuata was the base of federal operation. Censorship and interrupted communications greatly delayed messages from Mexico City, one of the latest of which told of a victory for the federal troops at Esperanza.

Headquarters of the De La Huerta forces at Vera Cruz were busy announcing rebel success at Coahuila in Michoacan and at Monterey.

12 ABATEMENT ACTIONS FILED IN LIQUOR DRIVE

St. Paul, Dec. 13.—Twelve abatement proceedings were filed in United States district court in St. Paul, as part of a statewide drive by federal prohibition officers to close places accused of violation of liquor laws. Of the 12 places named in abatement proceedings filed today by George A. Halsey, assistant United States attorney, six are in Minneapolis. Addresses given are 3027 Nicollet avenue, 429 Cedar avenue, 337 Fifth street N. E., 429 Washington avenue S., 1702 Washington avenue N., and 1101 Marshall street N. E.

PRETTIEST GIRL IN COUNTY TO GET \$100 PRIZE

WILL BE "MISS BRAINERD DIS-
PATCH" AT THE STATE
AUTO SHOW

TO BE SELECTED IN CROW WING
CO. BY POPULAR VOTE, USING
COUPONS IN DISPATCH

The Brainerd Dispatch has put on a beauty show contest and the prettiest girl in Crow Wing county, chosen by popular vote, all voters using the voting coupon in the Dispatch, wins \$100 cash, and will be "Miss Brainerd Dispatch" at the Twin City auto show.

As announced by the publicity department of the Twin City Auto Show Beauty Contest, these are the conditions:

A Beauty Show will be held in conjunction with the Twin City Automotive Exposition at the Overland Building the week of February 2 to 9, 1924.

Fifteen leading papers in Minnesota, North and South Dakota, will each select a girl to be sent to the auto show. All unmarried women are eligible. There will be no entrance fee of any kind. The papers may select their girls by coupon vote or in any other manner decided on by the editor. The BRAINERD DISPATCH has decided on the coupon vote. The contest will close on Monday, January 7, at 5 P. M. Announcement of the winners will be made not later than January 13.

The Auto Show will give to each girl so selected a cash prize of \$100 and that amount in the local contest will be paid by such auto show to The Dispatch and then awarded by such paper to the lucky contestant.

Then comes the grand prize contest. A jury at the auto show, to be announced later, will pick one girl from the group of fifteen. In addition to the \$100 prize, the winning girl will be known as "Miss Northwest." She will be sent to the Atlantic City Boardwalk Beauty Show next summer by the auto show management, with all expenses paid for her and her chaperone. If for any reason she is not eligible for the Atlantic City contest, she will be paid \$500 in cash.

Each girl sent to the auto show will participate in a style show and wear the gowns furnished by the twin city merchants. She must appear every night to receive her prize money.

The girl selected by each paper will bear the designation of that paper at the auto show, as "Miss Minneapolis Tribune," "Miss Brainerd Dispatch," etc.

It costs nothing to vote. Use this coupon and mail or bring it to the Brainerd Dispatch office.

### BREAK UP BANK ROBBER GANGS

#### YEGGS HAD PREYED ON BANKS IN FOUR STATES THIS FALL

(By United Press)  
Minneapolis, Dec. 13.—The gang of yeggs which has preyed upon banks in Minnesota, South Dakota, Iowa and Wisconsin this fall, has been broken up.

Five of the 12 or 15 members of the yegg mob are under arrest in Minnesota towns and members of the Minnesota Bankers' Protective association are "hot on the trail" of the others, it was learned at headquarters of the association here.

Operating in three gangs under the direction of two notorious leaders, the yegg mob has robbed about thirty banks in the four states in the last three months.

The loot has totaled more than \$250,000, it was estimated. In addition, operatives believe the same gang is responsible for the robbery of a number of merchandise stores in Minnesota.

Split into three gangs, the yeggs would strike in two or more towns on the same date. Then they would meet up with their leaders for a division of the spoils. Most of these meetings have been held in the Twin Cities, it is believed.

Louis Tufts, 23, arrested in a Minneapolis Gateway rooming house yesterday by Sheriff D. E. Schoener of St. Cloud was held in jail in Stearns county in default of \$2,000 bond as a suspect in the robbery of the Farmers State Bank at Fairhaven last Friday.

Detectives are hot on the trail of three others of the gang which staged this robbery, it was said.

Four other members of the gang are said to be held without charge in jails in other Minnesota counties and because no charges have been made representative of the Bankers' association declined to give out their names or the places where they were held. They are holding out until other members of the mob can be apprehended.

B. D. Brown, chief of detectives for the association is directing the investigation which will culminate in a cleanup of the entire gang of bandits, it is predicted.

The disclosure resulted from the arrest of Tufts in Minneapolis. Detectives have been on the trail of members of the gang for several weeks. The two leaders it was said have not been rounded up and efforts are now being made to round them up.

One member of the gang is held in Minneapolis, it was learned, and two other members of the gang that robbed the Fairhaven bank are now in Texas fleeing toward the Mexican border. Detectives hope these two will be captured.

Mike Allen, arrested at the same time Louis Tufts was apprehended, is held in Minneapolis.

Descriptions of Koretz were flashed out to sea by radio in the belief that he had sailed for Europe.

An investigation of Koretz' operations was started when F. E. Matthews, an attorney, complained to Crowe he had lost \$40,000 in one of the man's latest oil promotions. Scores of wealthy and socially prominent men are believed to be victims of Koretz' swindle.

One man lost \$200,000 in a promotion scheme, Crowe said he learned from records in Koretz' office. Koretz, according to Crowe, told his friend he owned 1,000,000 acres of land in Panama on which the "choicest oil had been found."

"The Great Bayano Trust of Panama" was the name Koretz used in connection with this project, it was said.

### BAREFOOTED GIRLS DANCE IN CHURCH

#### BARE LEGGED, TOO, THEY TAKE PART IN CHURCH SER- VICES

(By United Press)  
New York, Dec. 13.—Dancing of barefooted girls in St. Marks in the bourgeoisie may lead to an attempt at liberalization of the Episcopal church throughout the United States. The controversy between Dr. William Guthrie and Bishop William S. Manning, a spokesman for Dr. Guthrie told the United Press today, will be carried to the next general convention of the church if necessary to establish the canonical right of the rector of St. Marks to bring the church "up-to-date."

Dr. Guthrie will make no apologies when he goes before the bishop of the diocese of New York at 5 p. m. today," the spokesman said. He feels that the bishop is rather overstepping his authority in even summoning the rector of St. Marks for a conference.

It was explained that Dr. Guthrie who had been summoned before the bishop because he allowed barefooted, barelegged girls to dance an accompaniment to one of his church services can only be tried by an ecclesiastical court on charges which must be brought by members of the church other than the bishop.

### TRIED TO KILL HIS WIFE, THEN KILLED HIMSELF

(By United Press)  
Little Falls, Minn., Dec. 13.—Peter Collignon, 65, failed in an attempt to kill his wife here early today and committed suicide.

Returning from Winter, Wisconsin, where he had been working in a lumber camp at 2:30 a. m. Collignon fired at his wife who escaped by hiding in a closet. Collignon then shot himself and died instantly. Five children survive.

### INCOME TAX PAYMENTS FOR MINNESOTA SHOW QUITE AN INCREASE

(By United Press)  
St. Paul, Dec. 13.—Income tax payments for Minnesota made so far this month show an increase of \$319,000 over the same period of last year.

This was revealed in a report today by L. M. Willents, collector of internal revenue.

The total so far this month is \$947,000, compared with \$629,000 last year, according to the statement.

Saturday is the last day for the payment of taxes and a five per cent penalty will be imposed for delinquent payments, Willents said.

### OBREGON TAKES THE FIELD TODAY

#### PLANS AN EXTENSIVE ATTACK AGAINST REVOLUTIONARY FORCES

(By United Press)  
San Antonio, Texas, Dec. 13.—President Alvaro Obregon has taken the field against the revolutionary forces of Adolfo De La Huerta.

Advices received here stated Obregon was conferring with his military leaders at Irapuata planning an extensive attack on the rebel forces.

Secretary of War Ferrero will leave the Mexican capital today to review troops who will leave for the Vera Cruz front.

Squadrons of federal government airplanes are making flights over the territory held by the revolutionists to map out a plan of campaign for the Obregon forces, according to the reports.

### FEDERAL TROOPS VICTORIOUS AT VERA CRUZ

Mexico City, Dec. 13 (Delayed in transmission).—Federal troops today defeated the main rebel army in a battle at Vera Cruz.

An insurgent force under General Guadalupe Sanchez, commander in chief of the Vera Cruz rebels was engaged at Esperanza.

The rebels numbering 2,000 and federal forces under General Fasuto, 2,500 strong attacked the advancing column of insurgents early today.

The battle raged for five or six hours. General Sanchez's forces were badly beaten and driven back to Xuchitlan.

### REPORTS OF NEW BATTLES

Reports of new battles between federal troops and rebels in several states of Mexico reached the United States today.

President Obregon was somewhere in the field conferring with generals of the forces still loyal to the administration.

Dispatches to San Antonio said Irapuata was the base of federal operation. Censorship and interrupted communications greatly delayed messages from Mexico City, one of the latest of which told of a victory for the federal troops at Esperanza.

Headquarters of the De La Huerta forces at Vera Cruz were busy announcing rebel success at Coahuila in Michoacan and at Monterey.

### 12 ABATEMENT ACTIONS FILED IN LIQUOR DRIVE

St. Paul, Dec. 13.—Twelve abatement proceedings were filed in United States district court in St. Paul, as part of a statewide drive by federal prohibition officers to close places accused of violation of liquor laws. Of the 12 places named in abatement proceedings filed today by George A. Heisey, assistant United States attorney, six are in Minneapolis. Addresses given are 3627 Nicollet avenue, 429 Cedar avenue, 337 Fifth street N. E., 429 Washington avenue S., 1702 Washington avenue N., and 1101 Marshall street N. E.

### PRETTIEST GIRL IN COUNTY TO GET \$100 PRIZE

WILL BE "MISS BRAINERD DIS-  
PATCH" AT THE STATE  
AUTO SHOW

TO BE SELECTED IN CROW WING  
CO. BY POPULAR VOTE, USING  
COUPONS IN DISPATCH

The Brainerd Dispatch has put on a beauty show contest and the prettiest girl in Crow Wing county, chosen by popular vote, all voters using the voting coupon in the Dispatch, wins \$100 cash, and will be "Miss Brainerd Dispatch" at the Twin City auto show.

As announced by the publicity department of the Twin City Auto Show Beauty Contest, these are the conditions:

A Beauty Show will be held in conjunction with the Twin City Automotive Exposition at the Overland Building the week of February 2 to 9, 1924.

Fifteen leading papers in Minnesota, North and South Dakota, will each select a girl to be sent to the auto show. All unmarried women are eligible. There will be no entrance fee of any kind. The papers may select their girls by coupon vote or in any other manner decided on by the editor. The BRAINERD DISPATCH has decided on the coupon vote. The contest will close on Monday, January 7, at 5 P. M. Announcement of the winners will be made not later than January 13.

The Auto Show will give to each girl so selected a cash prize of \$100 and that amount in the local contest will be paid by such auto show to The Dispatch and then awarded by such paper to the lucky contestant.

Then comes the grand prize contest. A jury at the auto show, to be announced later, will pick one girl from the group of fifteen. In addition to the \$100 prize, the winning girl will be known as "Miss North-west." She will be sent to the Atlantic City Boardwalk Beauty Show next summer by the auto show management, with all expenses paid for her and her chaperone. If for any reason she is not eligible for the Atlantic City contest, she will be paid \$500 in cash.

Each girl sent to the auto show will participate in a style show and wear the gowns furnished by the twin city merchants. She must appear every night to receive her prize money.

The girl selected by each paper will bear the designation of that paper at the auto show, as "Miss Minneapolis Tribune," "Miss Brainerd Dispatch," etc.

It costs nothing to vote. Use this coupon and mail or bring it to the Brainerd Dispatch office.

## NOMINATION NIGHT AT ASSOCIATION

Dr. W. A. Erickson and F. H. Gruenhagen Named for Presidency  
Civic & Commerce Body

REGULAR ELECTION DEC. 28

Committee Reports Included Those  
on Electric Current, Poultry  
Show, Etc.

Dr. W. A. Erickson and F. H. Gruenhagen were nominated for the office of president of the Civic & Commerce Association at its regular meeting on Wednesday evening, which was nomination night for that organization. The regular election will be held at the next regular meeting.

Following are the nominees for the various offices and for the seven members of the board of directors:

For President—Dr. W. A. Erickson and F. H. Gruenhagen.

First Vice President—W. M. Murphy and R. R. Gould.

Second Vice President—W. A. Spencer and B. L. Lagerquist.

Third Vice President—O. A. Peterson and L. R. Tanner.

Treasurer—A. G. Trommald and H. E. Kundert.

Board of Directors: S. R. Adair, Con O'Brien, Dr. R. A. Beise, Dr. J. A. Thabes, Henry I. Cohen, C. A. Albright, Carl Zapfe, Dr. K. H. Hoorn, E. A. Cooke, Carl Adams, Ben S. Armstrong, W. C. Cobb, George D. LaBar and F. E. Stout.

At the business session which preceded the election, S. R. Adair reported in behalf of the special committee in charge of the electric current contract for the city with the Cuyuna Range Power Company, stating that the city council feels that it has a valid contract at the present time, and does not favor a new one. The report of this committee was accepted.

R. S. Wilcox, chairman of a committee appointed to assist the poultry association in its recent poultry show, reported that \$150 had been raised and the show held, the most successful since the association was started. The money raised was all that was needed, Mr. Wilcox stated. The report was accepted and the committee discharged.

A communication was read from George D. LaBar, chairman of the traffic committee, regarding the matter of keeping the county roads open during the winter. This was ordered placed on file.

Mr. LaBar, in his letter, stated that the committee appeared before the board of county commissioners at its last meeting, and set forth the importance of keeping the county highways open. The commissioners took the matter under consideration.

Henry I. Cohen presented the matter which has been considered by

some of the organizations of the city, pertaining to the resignation of Chief Forester W. T. Cox. It was moved that this matter be referred to a committee for investigation. The chair appointed C. A. Albright, Dr. W. A. Erickson and Henry I. Cohen. W. R. Hiller spoke on the municipal band and suggested that all members of the Civic and Commerce Association who employ male help, get in touch with the band master when they have a vacancy and in this way help to get good material for the city band.

Rev. E. A. Cooke presented the matter of a community chest for the city. He stated that last year \$5,000 was paid out for relief among the needy, which is more than the income received. Rev. Cooke expressed the opinion that it would be wise to do something in the nature of a community chest. A committee of three was appointed to co-operate with the committees from other organizations in putting on a community chest drive. On this committee were appointed S. R. Adair, E. J. Quinn and W. C. Cobb.

## Let Your Troubles Roll Away

Every time you buy a load of ordinary coal, the empty truck rolls away with so many dollars of your money. Furthermore, you will find you have bought a certain amount of trouble along with your coal.

Now, CONSOLIDATION ELKHORN and ZEIGLER NUT are coals of hard, firm structure. They do not break easily, and thus eliminate your loss from that source.

Furthermore, when put into your bin, they do not fill the house with dirt, and eliminate trouble from that source. The next time they take an empty coal truck away from your place, why not make sure they leave the money, and take the trouble with them.

You can do this by ordering CONSOLIDATION ELKHORN or ZEIGLER NUT. If you have any doubts, try them on our recommendation. Send us your order and be convinced.

Now, CONSOLIDATION ELKHORN and ZEIGLER NUT are coals of hard, firm structure. They do not break easily, and thus eliminate your loss from that source.

Furthermore, when put into your bin, they do not fill the house with dirt, and eliminate trouble from that source.

The next time they take an empty coal truck away from your place, why not make sure they leave the money, and take the trouble with them.

You can do this by ordering CONSOLIDATION ELKHORN or ZEIGLER NUT. If you have any doubts, try them on our recommendation. Send us your order and be convinced.

## SCOUT TRAINING SAVES LIFE

Is Scout training worth while? In the minds of some it is a question, others know that it is very much worth while. Potentially a boy is worth \$25,000 to the nation.

One day, in Crow Wing county, a group of boys were out on a trip, miles away from home, when an accident occurred, in which one of the boys was seriously injured. At the sight of the wound, and the fast flowing blood, the crowd were panic stricken—did not know what to do.

All of them? No, all but one, and he had learned emergency first aid in a Scout troop. He knew just what to do, and immediately put into practice that which he had learned while his companions stood by helpless in an emergency. Results? The flow of blood was stopped, the boy was made comfortable, brought to town and was given medical treatment and his life was saved. By the doctor? No, by the boy who had Scout training. The doctor said: "The right thing was done at the right time, otherwise the boy would have bled to death."

The boy's friends, who did not know the "inside" story, say he was lucky, but we would rather say he was "fortunate;" fortunate that one of his pals had had Scout training. Yes, some will say that Scouting does not pay.

Citizens of Crow Wing county will have paid \$5,000 during a period of twelve months to give some 250 boys Scout training. Is it too much?

When one boy who has had Scout training saves the life of a boy, whom authorities tell us had a potential value of \$25,000, do you think that it is worth while to spend \$5,000 to train 250 boys to "be prepared" in any emergency that may arise any time and anywhere?

## THE 10,000 LAKES ASSOCIATION

THE Ten Thousand Lakes Association of Minnesota has its annual meeting today in Minneapolis. It may not be amiss to review some of its history, for its institution was made possible through the efforts of Brainerd and other men, which included the president of the association, R. R. Wise.

The association was organized January 8, 1918, by nine public spirited men. They contributed \$25 each to provide the first funds. The original object of the association was to advertise Minnesota as a pleasure, business and farming possibility, with its delightful climatic conditions, unsurpassed scenic beauty, fine fishing, canoeing, bathing, hunting, roads, air, water, and soil, and intelligent people all nestled among its 10,000 lakes.

The name of the association was carefully chosen with reference to the number of lakes, which is really nearer 11,000, though at that time advertising water was of questionable popularity.

From such a humble beginning, the association has grown and now attracts national attention. True, it has assisted to establish the 10,000 lakes as a real entity known all over the world, but as stated by President Wise, advertising must now continue in increased measure to meet the competition of other resort and recreation centers.

Mr. Wise from the early days on has continued to devote much of his time to furthering the aims of the association. He has always been a contributor, a director from the beginning, and this year was honored by being named the president.

## POLITICAL COWARDS

POLITICAL cowards were dissected by Rev. Marion D. Shutter, D.D., of Minneapolis, in a memorable address delivered at a Du-luth luncheon club. When men turn cowards in public life, in politics, in church and in business, they simply represent the cowards in private life, was the conclusion reached by the reverend gentleman.

He advanced these arguments. "The fact is that our representative really represents us," he said. "When crises arrive, when occasions come where it is necessary to take sides, when principle confronts prosperity, they find it easiest, as the rest of us do, to 'play safe'."

"Representatives are shaped by the people, and not by their intelligence and better judgment, but by their prejudices and pettiness, their catch words and their criticism—these are the things that make it dangerous for a man to follow his convictions—if he hopes to enter and continue in public life."

"Here is one who wants a nomination or election. He no sooner announces the fact than he is confronted with a dozen questionnaires. Groups of women, men's clubs, civic organizations, labor unions, farmers' associations, welfare workers and others, want to know where he stands on 100 points that may or may not come up in the body to which he seeks to become a member, and by the time he has answered them all, he does not know where he stands himself. The chances are that he has shaded his real opinion to meet the views of a dozen inquisitors," Rev. Shutter declared.

## WHERE IS THE FARMER?

PROSPERITY is coming to many industries in the United States, but the basic one of all, farming, still needs rejuvenation. True, the farmer is not sitting disconsolate and expecting providence alone to lift him out of depression. Nevertheless the showing he has made does not begin to compare with the success attained by some other activities, and we shall mention a few:

There has been recorded the past few months our largest cotton consumption; our largest pig iron production; our largest steel ingot production; our largest crude oil production; our largest automobile and truck production; our largest residential construction; our largest production of locomotives; our largest volume of retail sales; our largest volume of railroad car loadings. These assertions are trustworthy, having been made by Julius H. Barnes, president of the United States Chamber of Commerce.

The national debt is being rapidly reduced and a splendid treasury balance established. Instead of issuing bonds, we are paying for them.

As prosperity has a habit of radiating its influence, it is hoped

that some of this radiation will indirectly re-establish the farmer and give him his "place in the sun."

## AN UNCLEAN STAGE

SOMEBODY in New York is sponsoring a movement to clean up the stage and to use a censorship similar to that existing over moving pictures. Getting down to facts in this part of the country, the movies are pushing and crowding out what legitimate drama was formerly supplied us in the way of road shows.

Whereas New York may have a patient to operate on, the "provinces" have so few plays that a censorship would be a sincere, merely a job with nothing to do.

The American public is clean-minded. Dramatic smut has never yet got the hold in this country that it has in some foreign countries.

## LAWS REGULATING WOMAN LABOR

Miss Helen A. Clinton, State Investigator, Examines Conditions Here

### GIVES DISPATCH INTERVIEW

Explains One Day of Rest Law, New Hour Law, Minimum Wage, Etc.

Miss Helen A. Clinton, an investigator of the Industrial Commission of Minnesota, Division of Women and Children, visited Brainerd and inspected conditions here.

She gave the Dispatch this interview:

"The new hour law, passed at the last session of the legislature, which went into effect July 1, 1923, provides that no woman shall be allowed to work at an occupation more than 9½ hours in any one day and 54 hours in any one week, with the exception of nurses engaged in the care of the sick, women engaged in domestic service and telephone operators in towns of less than 1,500 inhabitants."

"The One Day of Rest law, also passed at the last session of the legislature, provides that all employees shall have one day of complete rest in seven with certain exceptions including women working in hotels and cafes."

"The Child Labor law regulates the working hours for boys and girls under 16 years of age to not more than 8 hours in any one day and 48 hours in any one week. Children under 16 years of age may not be employed at any occupation before seven o'clock in the morning nor after seven o'clock at night."

"The minimum wage in cities of 5,000 or more population is \$12 for a week of from 36 to 48 hours and 25c for each additional hour making the wage \$13.50 for a 54 hour week. The limit fixed by the law which went into effect July 1, 1923. Learners may be paid at a lesser wage as fixed by Wage Order No. 12."

"The minimum wage in towns under 5,000 is \$10.25 for a week of from 36 to 48 hours and 21½ cents for each additional hour making the wage \$11.54 for a 54 hour week, the

limit fixed by the law which went into effect July 1, 1923. Learners may be paid at a lesser wage as fixed by Wage Order No. 12.

# SALTING DEPOT FOR PICKLES HERE

Brainerd to Have a New Industry to be Established by E. J. Heinz Co.

TO BE ONE OF 57 VARIETIES  
Company Asks Minimum of 150 Acres be Contracted to Raise Cucumbers

Brainerd is to have a new industry, and one which promises to be a very important one to this community, because of the fact that it will bring in a regular cash income to the farmers in this territory during the summer months.

The H. J. Heinz Co., famous for its "57 Varieties," has chosen Brainerd as one of the three cities in Minnesota, in which to develop the pickle industry, by putting in a warehouse and salting depot in the city, and contracting with farmers in the vicinity to grow cucumbers.

Last week A. E. Atwood and H. H. Cowan, of the pickle division of the H. J. Heinz Co., stopped in the city for a day in looking over prospective locations in this part of the state. It so happened that these representatives were here on Wednesday, and attended the Lions club luncheon, where the proposition was explained.

At a meeting of the board of directors of the club following the luncheon, it was unanimously decided that the Lions would underwrite the contracts for the required acreage for next season, the company demanding that a minimum of 150 acres be contracted before a warehouse and salting depot will be built. H. H. Cowan met with the Lions club again at last night's luncheon, and explained the policies of the company and its treatment of the growers, which seems very fair and which has proven most satisfactory in other localities in which similar operations are conducted.

Those farmers who contract to raise pickles for the H. J. Heinz Co., are assured a cash crop, which should bring them checks practically daily from the time the season opens early in July until it closes by a killing frost in the fall. When questioned as to the income from an acre of cucumbers, it was stated that in the company's experience, their growers are receiving from nothing to \$400 per acre, depending on weather conditions and methods used.

By the terms of the contract, which are very liberal, the Heinz Co., furnishes the seed to the grower free of charge, and pays him a certain stipulated price for the product delivered at the Brainerd warehouse. It is considered by the company, from long experience in cucumber growing, that one pound of seed per acre is sufficient for planting, but one and one-quarter pounds are furnished to allow for re-planting portions of the field that may require it.

The company agrees to purchase three kinds or grades of cucumbers from its growers. The first grade consists of regular shaped cucumbers from one inch to 3 1/2 inches in length, for which \$3 per hundred pounds will be paid. The second grade consists of regular shaped cucumbers from 3 1/2 inches to 5 1/2 inches in length, for which \$1 per hundred pounds is paid, and the third class is for crooked and nub shaped cucumbers in small sizes, for which \$1 per hundred pounds is paid.

In comparison with other companies that have been contracting with growers in this section of the state in former years, these prices are in most cases more than twice as much as have been paid farmers for their crops.

To illustrate what income is received at these prices, Mr. Cowan

quoted figures from a section in Wisconsin which has soil conditions similar to Crow Wing county. In the territory near Portage, Sparta and Wisconsin Rapids one farmer received \$172.45 per acre for his crop, another \$241.34 per acre, and another \$283.67 from a two-acre patch.

The grower sorts his cucumbers into the three acceptable sizes and receives his cash at each delivery in the form of a check on a local bank.

County Agent E. G. Roth has estimated that the total amount of labor required to plant and take care of an acre of cucumbers is 112 hours. The average return, then from each acre would net the grower more than a dollar an hour for his time spent, which is considered a fair income.

In addition to the seed, which is furnished free to the growers, the Heinz Company keeps in close touch with its farmers by circulars and personal letters containing valuable information and advice as to preparing the seed bed, thinning and cultivating the crop, marketing, etc., beside having a man in the territory during the growing season.

Farmers are discouraged by the company in trying to plant too large an acreage. From one to two acres of cucumbers is about the limit that the farmer with the average family can properly handle. Three pickers are required for two acres of cucumbers, and two pickers for one acre.

Most of the growers, in the past with whom the Heinz Company has contracted, have been in the states of Michigan and Wisconsin. This is the first time that an effort has been made to enter Minnesota, and Brainerd is the first city in the state to be selected, as a center. Two others are to be named in Minnesota, and it is probable that Staples will be one of these, said Mr. Cowan.

It has been the experience of the company that once a grower, the majority of the farmers continue their contracts, many having raised cucumbers for this one company for thirty-five or forty years. There are always a few, of course, who are dissatisfied with the first year's ex-

periment, and drop out, and there are always new recruits who sign up for the next season.

At an average income of \$150 per acre, and a minimum acreage of 150 acres, this new industry promises to bring to the Brainerd community an income of about twenty five thousand dollars each season, all of which is cash. The possibilities from the growers standpoint are unlimited, and should attract practically every farmer in this section, so that many more than the required 150 acres will be contracted.

## WHERE THE SECRET OF SUCCESS LIES

"Every thoughtful boy," says Frank H. Cheley, in the December number of Boys' Life, "asks, and it is right that he should," Cheley is discussing the question of handicaps and he points out many instances in which boys have overcome serious disadvantages. "Must a man," he says, "achieve fame, or wealth, or live well, laughed often, and loved

notoriety; must a man be an inventor or a great explorer or statesman to be successful? And the answer should be 'sounded clear and strong. NO, a thousand times no. A successful man is the man who makes the very most of himself with all factors considered. That gives the handicapped boy of real spirit a wide open door.

"He has achieved success who has achieved fame, or wealth, or lived well, laughed often, and loved

much; who has gained the respect of intelligent men and the love of little children; who has filled his niche and accomplished his task; who has left the world better than he found it, whether by an improved poppy, a perfect poem or a rescued soul, who has always looked for the best in others and given the best he had; whose life was an inspiration; whose memory a benediction."

"Many men owe the grandeur of their lives to their tremendous difficulties and probably because their attitude toward their difficulties was right. 'Great minds master their circumstances,' wrote Paul Leicester. The boy who thinks he is licked is licked. The boy who believes in his own self, regardless of every disappointment and handicap, will emerge somewhere saying as did the great Mirabeau, 'Impossible! Never let me hear that foolish word again.'"

# SALTING DEPOT FOR PICKLES HERE

Brainerd to Have a New Industry to  
be Established by E. J.  
Heinz Co.

TO BE ONE OF 57 VARIETIES

Company Asks Minimum of 150  
Acres be Contracted to Raise  
Cucumbers

Brainerd is to have a new industry, and one which promises to be a very important one to this community, because of the fact that it will bring in a regular cash income to the farmers in this territory during the summer months.

The H. J. Heinz Co., famous for its "57 Varieties," has chosen Brainerd as one of the three cities in Minnesota, in which to develop the pickle industry, by putting in a warehouse and salting depot in the city, and contracting with farmers in the vicinity to grow cucumbers.

Last week A. E. Atwood and H. H. Cowan, of the pickle division of the H. J. Heinz Co., stopped in the city for a day in looking over prospective locations in this part of the state. It so happened that these representatives were here on Wednesday, and attended the Lions club luncheon, where the proposition was explained.

At a meeting of the board of directors of the club following the luncheon, it was unanimously decided that the Lions would underwrite the contracts for the required acreage for next season, the company demanding that a minimum of 150 acres be contracted before a warehouse and salting depot will be built.

H. H. Cowan met with the Lions club again at last night's luncheon, and explained the policies of the company and its treatment of the growers, which seems very fair and which has proven most satisfactory in other localities in which similar operations are conducted.

Those farmers who contract to raise pickles for the H. J. Heinz Co., are assured a cash crop, which should bring them checks practically daily from the time the season opens early in July until it closes by a killing frost in the fall. When questioned as to the income from an acre of cucumbers, it was stated that in the company's experience, their growers are receiving from nothing to \$400 per acre, depending on weather conditions and methods used.

By the terms of the contract, which are very liberal, the Heinz Co., furnishes the seed to the grower free of charge, and pays him a certain stipulated price for the product delivered at the Brainerd warehouse. It is considered by the company, from long experience in cucumber growing, that one pound of seed per acre is sufficient for planting, but one and one-quarter pounds are furnished to allow for re-planting portions of the field that may require it.

The company agrees to purchase three kinds or grades of cucumbers from its growers. The first grade consists of regular shaped cucumbers from one inch to 3 1/2 inches in length, for which \$3 per hundred pounds will be paid. The second grade consists of regular shaped cucumbers from 3 1/2 inches to 5 1/2 inches in length, for which \$1 per hundred pounds is paid, and the third class is for crooked and nub shaped cucumbers in small sizes, for which \$1 per hundred pounds is paid.

In comparison with other companies that have been contracting with growers in this section of the state in former years, these prices are in most cases more than twice as much as have been paid farmers for their crops.

To illustrate what income is received at these prices, Mr. Cowan

quoted figures from a section in Wisconsin which has soil conditions similar to Crow Wing county. In the territory near Portage, Sparta and Wisconsin Rapids one farmer received \$172.45 per acre for his crop, another \$241.34 per acre, and another \$283.67 from a two-acre patch.

The grower sorts his cucumbers into the three acceptable sizes and receives his cash at each delivery in the form of a check on a local bank.

County Agent E. G. Roth has estimated that the total amount of labor required to plant and take care of an acre of cucumbers is 112 hours. The average return, then from each acre would net the grower more than a dollar an hour for his time spent, which is considered a fair income.

In addition to the seed, which is furnished free to the growers, the Heinz Company keeps in close touch with its farmers by circulars and personal letters containing valuable information and advice as to preparing the seed bed, thinning and cultivating the crop, marketing, etc., beside having a man in the territory during the growing season.

Farmers are discouraged by the company in trying to plant too large an acreage. From one to two acres of cucumbers is about the limit that the farmer with the average family can properly handle. Three pickers are required for two acres of cucumbers, and two pickers for one acre.

Most of the growers, in the past with whom the Heinz Company has contracted, have been in the states of Michigan and Wisconsin. This is the first time that an effort has been made to enter Minnesota, and Brainerd is the first city in the state to be selected, as a center. Two others are to be named in Minnesota, and it is probable that Staples will be one of these, said Mr. Cowan.

It has been the experience of the company that once a grower, the majority of the farmers continue their contracts, many having raised cucumbers for this one company for thirty-five or forty years. There are always a few, of course, who are dissatisfied with the first year's ex-

periment, and drop out, and there are always new recruits who sign up for the next season.

At an average income of \$150 per acre, and a minimum acreage of 150 acres, this new industry promises to bring to the Brainerd community an income of about twenty five thousand dollars each season, all of which is cash. The possibilities from the growers standpoint are unlimited, and should attract practically every farmer in this section, so that many more than the required 150 acres will be contracted.

## POST-SEASON FOOTBALL IN DISFAVOR

By HENRY L. FARRELL  
United Press Sports Editor

New York, Dec. 13.—After the difficulty encountered this year in getting two college football teams to play in the New Year's game at Pasadena, it would seem that the idea of post-season games between the big teams is not growing in favor.

Perhaps it would not be stretching the evidence to draw the conclusion that big post-season games are a dead issue, as far as future development is concerned.

Early in the past season the Navy team accepted an invitation to go to Pasadena and play against a representative Pacific Coast Conference team in the New Year's game.

There were political reasons for the acceptance of the invitation by the Navy athletic officers, and the midshipmen can be considered more as public property than any other big team with the exception of the Army.

Syracuse, Cornell, Notre Dame and several other prominent eastern teams declined with regrets invitations to go to California to play in other post-season games.

The Pasadena committee even had trouble in getting a Pacific Coast team to play the Navy in the New Year's game.

Eastern athletic officials, and no doubt it is well understood among the college authorities on the coast, have not taken a stand against those post-season coast games because they are afraid of the chance of being shown up.

The opinion backing their opposition is that such games have mercenary features and that there is no excuse for them.

Several eastern coaches have expressed their belief that the only way to avoid the bad features of the post-season games would be to schedule such inter-sectional games in advance.

If Yale, Princeton, Harvard, Syracuse, Cornell, Dartmouth, Michigan, Illinois and Chicago had cause for not looking with favor upon coast trips this season, there is no reason to believe that they will not have the same objections next year and the year after.

## CHICAGO IS AFTER OLYMPICS IN 1928

Chicago, Dec. 13.—An effort to bring the 1928 Olympic games to Chicago will be made by John F. Fullerton, fire commissioner, who has left on his way to Chamonix, France, where the Olympic skating competition will be held on Jan. 26, and where he will confer with Olympic officials relative to reassigning the games to the United States.

Arrangements have already been made to hold the 1928 Olympic in Holland, but because of financial and economic conditions in Europe it is hoped that officials can be induced to make the change.

The city council is to be asked to take official action, and if the movement is approved an organized drive among the organizations of the city is expected to be launched.

## INTERNATIONAL HORSE RACE IS SET FOR 1924

New York, Dec. 13.—An international race in 1924, on the Zev-Papyrus order, or possibly a series of them in this country and abroad, is virtually assured as a result of conferences. Plerer Wertheimer, multi-millionaire Parisian owner of Epinard, 3 year old sensation of France, had with Major August Belmont and with Harry F. Sinclair, oil millionaire and owner of Zev.

After the French sportsman visited Belmont in his downtown banking offices, the American sportsman, whose initiative made possible the bringing of Papyrus, derby winner, to this country, issued a statement through the Jockey club, in which he said:

"Mr. Wertheimer stated that one of the purposes of his visit to America was to find out whether any horse in this country could be induced to go to France and race against his horse, Epinard, next season.

"In default of being able to arrange such a race, Mr. Wertheimer expressed himself as ready to bring Epinard to America next summer and enter him in some of our autumn events or race his horse for such special races as our association may feel inclined to offer."

## AIMS TO REGULATE ANTHRACITE INDUSTRY

Harrisburg, Pa., Dec. 13.—Governors of anthracite using states were to accept proposals of Governor Pinchot today for regulation of the hard coal industry.

The second conference of representatives of states consuming anthracite was called by Pinchot in accordance with the recommendations made at the previous meeting to have a session to make plans for relieving the burden of exorbitant coal prices.

Only a handful of delegates were ready to reply for their states on two suggestions presented by the Pennsylvania executive. The majority of governors accepted with silence the Pinchot plan for a compact and the draft of legislation submitted to them. Governors Silzer, New Jersey and Cox, Massachusetts, were unfavorably impressed and declined to attend. Governor Preus, Minnesota, was on hand to repeat his request for a law to declare anthracite a "public business."

For in this production each featured player, notably Charles de Roche and Theodore Kosloff, is required to do some sort of a stunt before the camera.

## How to Remove Tobacco Stains From Teeth—In Just Three Minutes

Thousands of people now use a marvelous new treatment to remove tobacco and other stains from their teeth. This wonderful scientific discovery, called Bleachodent Combination, bleaches even the darkest teeth white in three minutes—leaving them amazingly clean and lustrous. The very first application brings really wonderful results. It consists of a mild, safe liquid and a special kind of paste. The liquid instantly curdles and softens all stains while the paste gently removes them, and if used daily prevents the formation of future stains. Bleachodent Combination is fine for children's teeth. Those "candy stains" and "green spots" dissolved away quickly and safely. Cannot affect enamel as its safe, mild ingredients act only on surface stains—not on enamel itself. Tobacco stains disappear almost while you wait. No excuse now for dull, yellow, dark, discolored teeth. Get Bleachodent Combination today. Two months' supply for only a few cents.

Note: Do not expect Bleachodent Combination to whiten a tooth darkened by a silver lining, as this discoloration goes below the surface of the enamel, and while the mild action of Bleachodent Combination will instantly whiten dark, yellow, stained teeth, it cannot be expected to remove stains which are a part of the enamel itself, as it has no effect on the enamel in any way.

## POST-SEASON FOOTBALL IN DISFAVOR

By HENRY L. FARRELL  
United Press Sports Editor

New York, Dec. 13.—After the difficulty encountered this year in getting two college football teams to play in the New Year's game at Pasadena, it would seem that the idea of post-season games between the big teams is not growing in favor.

Perhaps it would not be stretching the evidence to draw the conclusion that big post-season games are a dead issue, as far as future development is concerned.

Early in the past season the Navy team accepted an invitation to go to Pasadena and play against a representative Pacific Coast Conference team in the New Year's game.

There were political reasons for the acceptance of the invitation by the Navy athletic officers, and the midshipmen can be considered more as public property than any other big team with the exception of the Army.

Syracuse, Cornell, Notre Dame and several other prominent eastern teams declined with regrets invitations to go to California to play in other post-season games.

The Pasadena committee even had trouble in getting a Pacific Coast team to play the Navy in the New Year's game.

Eastern athletic officials, and no doubt it is well understood among the college authorities on the coast, have not taken a stand against those post-season coast games because they are afraid of the chance of being shown up.

The opinion backing their opposition is that such games have mercenary features and that there is no excuse for them.

Several eastern coaches have expressed their belief that the only way to avoid the bad features of the post-season games would be to schedule such inter-sectional games in advance.

If Yale, Princeton, Harvard, Syracuse, Cornell, Dartmouth, Michigan, Illinois and Chicago had cause for not looking with favor upon coast trips this season, there is no reason to believe that they will not have the same objections next year and the year after.

## CHICAGO IS AFTER OLYMPICS IN 1928

Chicago, Dec. 13.—An effort to bring the 1928 Olympic games to Chicago will be made by John F. Fullerton, fire commissioner, who has left on his way to Chamonix, France, where the Olympic skating competition will be held on Jan. 26, and where he will confer with Olympic officials relative to reassigning the games to the United States.

Arrangements have already been made to hold the 1928 Olympic in Holland, but because of financial and economic conditions in Europe it is hoped that officials can be induced to make the change.

The city council is to be asked to take official action, and if the movement is approved an organized drive among the organizations of the city is expected to be launched.

## INTERNATIONAL HORSE RACE IS SET FOR 1924

New York, Dec. 13.—An international race in 1924, on the Zev-Papyrus order, or possibly a series of them in this country and abroad, is virtually assured as a result of conferences Pierer Wertheimer, multi-millionaire Parisian owner of Epinard, 3 year old sensation of France, had with Major August Belmont and with Harry F. Sinclair, oil millionaire and owner of Zev.

After the French sportsman visited Belmont in his downtown banking offices, the American sportsman, whose initiative made possible the bringing of Papyrus, derby winner, to this country, issued a statement through the Jockey club, in which he said:

"Mr. Wertheimer stated that one of the purposes of his visit to America was to find out whether any horse in this country could be induced to go to France and race against his horse, Epinard, next season.

"In default of being able to arrange such a race, Mr. Wertheimer expressed himself as ready to bring Epinard to America next summer and enter him in some of our autumn events or race his horse for such special races as our association may feel inclined to offer."

## AIMS TO REGULATE ANTHRACITE INDUSTRY

Harrisburg, Pa., Dec. 13.—Governors of anthracite using states were to accept proposals of Governor Pinchot today for regulation of the hard coal industry.

The second conference of representatives of states consuming anthracite was called by Pinchot in accordance with the recommendations made at the previous meeting to have a session to make plans for relieving the burden of exorbitant coal prices.

Only a handful of delegates were ready to reply for their states on two suggestions presented by the Pennsylvania executive. The majority of governors accepted with silence the Pinchot plan for a compact and the draft of legislation submitted to them. Governors Silzer, New Jersey and Cox, Massachusetts, were unfavorably impressed and declined to attend. Governor Preus, Minnesota, was on hand to repeat his request for a law to declare anthracite a "public business."

### Daring Screen Stunts

Do screen players actually do all the stunts called for by the director? If we were to take the case of Dorothy Dalton's latest Paramount stellar vehicle, "The Law of the Lawless," which will be shown at the Lyceum Theatre for the last time tonight, for an example the answer would be—yes. For in this production each featured player, notably Charles de Roche and Theodore Kosloff, is required to do some sort of a stunt before the camera.

### Scenes Show Big Ranch

Striking scenes of a great cattle ranch are shown in "The Man Next Door," by Emerson Hough, author of "The Covered Wagon," which will be seen at the Lyceum Friday. Thousands of cattle are used in making shots showing the life on a great Wyoming ranch where Emerson Hough laid his story.

## "Her Reputation" at the New Park Last Time Tonight

Scandal—sensationalism—and a great love! Thomas H. Ince has woven them into the most unusual story of the screen season in "Her Reputation"—the throbbing, human story of a great tragedy and a great romance which lies back of a first page newspaper scandal.

Here is a story that will reach home to every member of an audience. The daily newspaper with its burden of "news"—its broadcasting of human struggles, hopes, brilliant

achievements and sordid shortcomings—is as much a necessity of the modern American home as the daily bread.

The compelling story that lies back of one flaring "head line scandal" and the fight of a girl who loses "her reputation" under the glare of publicity, to regain social standing has been brilliantly told in the latest Ince production. It has been filmed in the "Ince way" which means top-notch direction; a superlative cast and a "punch" in every foot of six fast moving reels.

SCENE FROM "SOME WILD OATS"

Don't Get Married Until You See "Some Wild Oats"

Samuel Cummins, producer of the motion picture "Some Wild Oats," which is coming to the New Park

Theatre, on next Monday and Tuesday, has made a thorough study of the subject of sex hygiene and he claims that if all the young folks would stop to look and listen before deciding on matrimony, there would

## How to Remove Tobacco Stains From Teeth —In Just Three Minutes

Thousands of people now use a marvelous new treatment to remove tobacco and other stains from their teeth. This wonderful scientific discovery, called Bleachodont Combination, bleaches even the darkest teeth white in three minutes—leaving them amazingly clean and lustrous. The very first application brings really wonderful results. It consists of a mild, safe liquid and a special kind of paste. The liquid instantly curdles and softens all stains while the paste gently removes them, and if used daily prevents the formation of future stains. Bleachodont Combination is fine for children's teeth. Those "candy stains" and "green spots" dissolved away quickly and safely. Cannot affect enamel as its safe, mild ingredients act only on surface stains—not on enamel itself. Tobacco stains disappear almost while you wait. No excuse now for dull, yellow, dark, discolored teeth. Get Bleachodont Combination today. Two months' supply for only a few cents.

Note: Do not expect Bleachodont Combination to whiten a tooth darkened by a silver lining, as this discoloration goes below the surface of the enamel, and while the mild action of Bleachodont Combination will instantly whiten dark, yellow, stained teeth, it cannot be expected to remove stains which are a part of the enamel itself, as it has no effect on the enamel in any way.

## The Secret of Good Baked Beans

KITCHEN BOUQUET does for baked beans what it does for gravies—greatly adds to their flavor and improves their color.

In Boston, where the preparation of all kinds of beans has reached a perfection that is the despair of all other sections, KITCHEN BOUQUET is most liberally used.

Preparing for the oven, add a tablespoonful to a quart of beans. Prepare your beans the Boston way.

KITCHEN BOUQUET
